

Work anywhere. Build everywhere.

Introducing Bluebeam Plans

New Bluebeam plans allow your teams to **get even more out of the markup and workflow automation tools** in Bluebeam Revu while **completing entire workflows on the go** with new Bluebeam Cloud solutions. The user experience is seamless and connected, so you can get more done together – anywhere.

Your work - your way.

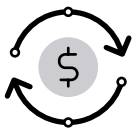

More flexibility

- Log in and start working on any computer with Revu installed
- Extend the work into the field with Bluebeam Cloud solutions on any web or iOS device
- Connect with external apps, automate workflows and integrate your tech stack

Peace of mind

- Improve user access and security with single sign-on (SSO)
- Onboard teams faster with intuitive onboarding guides and Bluebeam University courses at no additional cost
- Gain visibility and faster access to data shared across Bluebeam solutions

Lower TCO

- Assign the right Bluebeam plans based on job roles and needs
- Get ongoing product enhancements, upgrades and support
- Easily manage and track Bluebeam licenses and installations

Our new accessible-from-anywhere products and services will allow us to deliver more ongoing value to every customer and every organization. We're reinventing the way we deliver value across Design and Build workflows - in the office and in the field - so we can stay better engaged with our customers and the industry as it continues its rapid pace of change and innovation.

- Roger Angarita, Bluebeam Chief Product Officer

Bluebeam Plans

Available by subscription
